SPEAKERS

Kristi Taylor, JD

Partner

Fragomen, Del Rey, Bernsen & Loewy, LLP

Kristi is a Partner at Fragomen's Dallas office, where she focuses her practice on corporate immigration, worksite immigration compliance, and the development and implementation of global mobility immigration programs.

She advises Fortune 500 clients on a wide variety of complex immigrant and nonimmigrant matters, including defending employer sanctions cases, developing strategies for addressing workforce reductions and assisting with due diligence and other immigration issues during mergers and acquisitions. Kristi also advises clients on the maintenance of public access files and I-9 program improvement and compliance. Her client base includes companies from a diverse range of industries, including telecommunications, engineering, architecture, healthcare, technology, oil and gas, and financial services.

Paige Taylor, JD

Partner

Fragomen, Del Rey, Bernsen & Loewy, LLP

Paige is a Partner in Fragomen's Dallas office, where she advises and represents clients across a variety of industries, including telecommunications, technology, energy, engineering and electronics.

Paige has extensive experience in developing, implementing and managing PERM labor certification programs, as well as counseling multinational corporations on immigration practices and policies associated with corporate reorganizations, mergers, name changes and layoffs; H-1, L-1, TN, O-1 and J-1 non-immigrant visas; and public access and I-9 program compliance and improvement.

She also has developed a practice representing entertainers, athletes, scientists, researchers and health care professionals.

Supriya Sinha, PhD, MS

Entrepreneur in Residence

Texas Medical Center Innovation

Passionate about catalyzing innovation in cancer therapeutics and empowering early-stage startups, Supriya Sinha, PhD, now serves as an Entrepreneur in Residence (EIR) at Texas Medical Center- Accelerator for Cancer Therapeutics (TMC-ACT). With a dynamic background spanning technology transfer, venture capital, and biotech entrepreneurship, Supriya brings expertise in translating scientific discoveries into tangible patient and commercial benefits.

Formerly serving as the Assistant Director of Commercialization Relations at UT Southwestern Medical Center, Supriya played a pivotal role in expanding commercialization opportunities and fostering strategic partnerships to nurture the biotech ecosystem in North Texas. With prior experience at Bios Partners, Supriya honed her expertise in biotech and life science investing, contributing to significant advancements in innovative technologies aimed at positively impacting patients' lives.
